

Case Study

Gerard Graham (Portglenone)

For over thirty years I have been breeding and training border collies for working the farm and competing in sheepdog trials. I have gained an excellent reputation both locally and further afield. My aim is 'to produce good quality dogs' and this has proven to be the case in recent years.

Dogs that I have bred and trained have represented Ireland at International level on six

occasions and have been consistently placed in national competitions. One of my top dogs, Beau, was voted top breeding dog in the British Isles in Working Sheepdog News 2004.

I have fed Feedwell for over 15 years, [Maintenance](#) and [Sport](#) for my adult dogs and [Feedwell Puppy](#) when rearing our pups. It is a quality feed that has been helping my dogs consistently perform in the Field for years and would highly recommend it.
