

Case Study

Sam Willoughby and Rosie (Gundog Rescue and Rehoming) Dunmurry

When we first got Rosie (formerly Luna) she was a tiny 8kg and in terrible health as you can see from the photo. She had practically given up on life. With a serious amount of love and a great food in Feedwell, over a number of months Rosie came back to life is now a happy healthy 20kg dog.

We wouldn't be without her and it is just upsetting that she was ever in that condition in the first place. I couldn't recommend Feedwell enough, we use it for many of our rescue dogs day in day out.

A superb feed.
